USOSWEB FOR DEGREE STUDENTS

https://usosweb.uni.wroc.pl

What is USOSweb?

USOSweb is your individual account where you can check if you are registered for the courses you've signed in and in the end of each semester you can check your grades. You can also check there the teacher name and his/her office hours and contact data.

To log in to your USOS for the first time you have to use your student number (written on student ID) and restore the password.

In case of any problems with USOSweb you should contact the USOS office: **usosweb@uwr.edu.pl** or your Programme Coordinator.
